Profile

Data Analyst with a professional background in **logistics, maritime operations, and HR**. Experienced in transforming operational data into actionable insights using **Python, SQL, PySpark, and data visualization tools**. Strong analytical mindset with hands-on experience in data cleaning, ETL processes, exploratory analysis, and data pipelines. Focused on supporting data-driven decision making, business reporting, and process optimization.

Experience

May 2024 – Present
Crew Discipline Planner, *Allseas*, Essen, Belgium
- Coordinate and plan crew schedules ensuring compliance with maritime regulations and project requirements.
- Collaborate with HR and project managers to align crew availability with vessel rotations.
- Apply data-driven forecasting to improve scheduling accuracy and reduce operational conflicts.

Jun 2021 – Apr 2024
Planner, *Eurojob*, Amsterdam, Netherlands
- Managed transportation and logistics planning for large-scale warehouse operations, specializing in supermarket distribution chains.
- Led a team ensuring process efficiency, quality control, and on-time deliveries.
- Implemented KPI tracking and forecasting dashboards that improved operational efficiency by 15%.
- Worked with forecasting, quality control, KPI reporting, process optimization, and operational planning.

Apr 2020 – Jun 2021
Account Specialist / Planner, *Eurojob*, Rotterdam, Netherlands
- Oversaw client accounts and workforce allocation for multiple logistics projects.
- Supported payroll processing and HR coordination for on-site teams.
- Enhanced client satisfaction by improving communication, planning visibility, and response time.

Aug 2019 – Apr 2020
Order Picker / Transport Planner, *PostNL*, Born, Netherlands
- Coordinated internal transport operations and assisted in logistics planning.
- Supported daily order processing and ensured accurate shipment preparation.

Dec 2018 – Feb 2019
Administrative Backoffice / Material Planner, *CES Gestiform*, Murcia, Spain
- Managed materials planning and administrative tasks for industrial projects.
- Assisted in supply chain documentation and process optimization.

May 2016 – Oct 2018
HR Officer / Training Technician, *Unavia Formación SL*, Murcia, Spain
- Coordinated training programs and recruitment processes for partner companies.
- Maintained employee records and ensured compliance with HR regulations.

Education

Sep 2024 – Oct 2025
Master in Big Data and Business Analytics, *Universidad Complutense de Madrid*, Madrid, Spain
Relevant skills: Python, SQL, NoSQL, MongoDB, Tableau, Apache Spark, Azure Databricks, AWS.

Sep 2019 – Jul 2020
Master's Degree in Security and Loss Prevention Services, *Universidad Nacional de Educación a Distancia (UNED)*, Madrid, Spain
Focus on risk analysis, data-driven prevention systems, and organizational resilience.

2013 – 2018
Double Bachelor's Degree in Human Resources and Labor Relations, and Social Sciences, *Universidad de Murcia*, Murcia, Spain
Graduated with emphasis on management, workforce analytics, and organizational development.

Data Projects

NMBS (SNCB) Data Pipeline Built a data pipeline integrating GTFS and XML transport data from the Belgian railway domain, transforming raw operational data into structured datasets for analysis and insights. Focused on data transformation, data quality, and enabling analytical access using PySpark, Azure Databricks, MongoDB, and FastAPI.

Spotify Data Analysis with Apache Spark Analyzed Spotify streaming data using Apache Spark. Performed ETL, aggregation, and exploratory analysis to identify listening patterns, trends, and popular genres. Visualized insights using Tableau and Matplotlib.

Business Intelligence Dashboards Created dashboards to analyze KPIs, business performance, and operational trends. Applied data visualization techniques to support data-driven decision making.

Text Mining Project Applied NLP techniques to analyze and classify professional mentions in social media text. Used Python, Pandas, and HuggingFace Transformers for preprocessing, tokenization, classification, and exploratory analysis of unstructured data.

Water Pump Failure Prediction Developed a predictive model to analyze pump failures using Python. Performed data cleaning, feature engineering, and model selection with scikit-learn and XGBoost.

Skills

Data Tools Python, SQL, PySpark, Databricks, MongoDB, Tableau, Git

Data Skills Data Analysis, Data Cleaning, ETL, Data Visualization, SQL Analytics, Exploratory Data Analysis, Feature Engineering

Business / Operations Crew Planning, Forecasting, KPI Reporting, Process Optimization, Maritime Operations, Logistics Planning

Soft Skills Analytical Thinking, Problem Solving, Team Collaboration, Project Management

Languages Spanish (Native), English (Full Professional), Dutch (Basic – A1)

Certifications

2025 – 2027 **SnowPro Associate: Platform Certification** — Snowflake
Credential ID: 163660898

Additional Information

Interests Data analysis, data visualization, process optimization, maritime logistics, automation
